1. BEFORE YOU GO

Passports

All travelers must have a passport valid for at least six (6) months beyond your period of stay.

Children/Minors: There are specific requirements for children departing the United States, and many countries have implemented similar measures to enhance child protection.

Visa

The Maldives grants a free 30-day visa on arrival to citizens of virtually all countries. No pre-approval is required.

You are responsible for:

- Having a confirmed return airline ticket and proof of accommodation (your Aggressor booking confirmation counts)
- Having documents to re-enter your home country
- Checking visa rules for any connecting flights

Important note: Effective April 15, 2025, entry to the Maldives is not granted on Israeli passports.

Where To Check:

- USA citizens: www.travel.state.gov
- Other countries: Contact your foreign affairs office or embassy
- All travelers:

The [IATA Travel Centre](#) is a helpful resource for travelers checking current travel, visa, and health requirements.

NOTE: The Reservation Office and staff cannot assume responsibility for passengers who do not have the correct documentation.

Questions? Contact the Aggressor reservations office.

Visa and entry requirements can change without notice. Always verify before traveling.

Required Forms

You need two things before you can dive and a third if you plan to do scuba training:

1. GUEST INFORMATION SYSTEM (GIS)

What: Aggressor's online cruise application forms, including waiver and travel details.

When: Completed at least 14 days before departure.

How: You'll receive a link by email. If you didn't get it, contact reservations.

Include your full arrival & departure flight information and lodging information (if applicable) in the GIS trip application.

2. DIVE CERTIFICATION CARD (C-CARD)

What: Your diving certification card.

Bring: The physical card or digital proof.

Note: If diving with Nitrox, bring your Nitrox certification card as well.

3. MEDICAL FORM (RSTC) (*Only if doing scuba training*)

What: Diving Medical History Form

When: Required only if you plan to take a scuba training or certification course during your trip.

How:

- Download the form now at <http://www.aggressor.com/RSTCMedical.pdf>
- Answer all questions honestly.
- The form will tell you if your answers require a doctor's approval.
- If no doctor approval is needed, you can sign it yourself.
- Print it and bring it to the yacht.

ALREADY HAVE ONE? You may use a signed medical form from your doctor if it's valid for the last 12 months.

There are no doctors once the yacht leaves the dock. If you need a doctor's signature and don't have it, you cannot participate in any SCUBA training classes.

What if I forget to complete these forms?

- An incomplete GIS will result in denied boarding and possible trip cancellation without a refund.
- You cannot dive without a certification card.
- You cannot participate in SCUBA training courses without a medical form.

Travel & Health Insurance

Aggressor Adventures strongly recommends all guests purchase insurance to protect your investment and health.

SUGGESTED COVERAGE:

- Travel Insurance (Trip Cancellation and Interruption)
- Dive Insurance (Dive Accident and Medical)
- Equipment Insurance

CONSIDER ADDING:

- "Cancel For Any Reason" (CFAR) upgrade – extends coverage beyond traditional policies without the constraints of “covered situations”.
- "Liveaboard Rider" upgrade - addresses liveaboard-specific issues such as missed dives due to illness, weather, or accidents to others, which impact your experience and more.

These policies provide financial security if unexpected events occur.

Get quotes: www.aggressor.com → [Insurance](#) for options.

2. PREPARING FOR YOUR ADVENTURE (2-4 WEEKS BEFORE)

Recommended Packing: [OBJ]

Travel light. Space on the liveaboard yacht is limited.

LUGGAGE: Use soft luggage, such as duffel bags (not hard suitcases), for easy storage in your cabin.

CLOTHING TO BRING:

- Lightweight, comfortable sportswear
- Swimsuits
- Light sweater or jacket for evenings
- Walking shoes for time ashore
- Sunglasses and hat

Dress code: Always casual and informal

ESSENTIALS:

- Sunscreen (reef-safe recommended)
- Sunglasses
- Hat
- Walking shoes

PACKING CHECKLIST: Use this QR code to grab a free Packing Guide. It's a simple checklist to help ensure you have everything you need for your adventure—so nothing essential gets left behind.

Electronic Devices

Personal Electronics are welcome:

- ✓ Cameras, phones, satellite phones, computers, tablets, and e-readers
- ⚠ Advance permission through an application process is required for drone use in the Maldives. Please do not bring a drone without first confirming the current requirements.

The following devices are prohibited:

Prohibited Equipment	Notes
🚫 Underwater Scooters	Prohibited.
🚫 Electric Surfboards	Includes e-foils, jetboards, powered surfboards, and similar devices.

CHECK WITH AIRLINE: Some airlines have restrictions on lithium batteries in checked bags. Check your airline's rules before packing.

Required Dive Equipment

All divers are required to have the following equipment. You may either bring your own or rent on board.

- Mask
- Fins
- Snorkel
- Buoyance Compensator (BCD)
- Regulator with an Alternate Air source and a visible pressure gauge
- Dive Computer — MANDATORY (required by Maldives law)
- Tank (*provided*)
- Weights (*provided*)
- Weight belt (*provided*)
- Wetsuit (*optional*)

Personal Dive Equipment

Mark each piece of your personal gear with waterproof paint or tape. Many items of diving equipment look similar, so clearly labeling yours will help prevent mix-ups.

MANDATORY safety equipment for all dives: Due to the currents in the Maldives, the following are required on every dive:

- Dive Alert air horn or whistle
- Surface Marker Buoy (SMB) / Safety Sausage
- Personal strobe or signaling mirror

Additional safety equipment to consider:

- Reef hook (for current diving)
- Nautilus Rescue Radio

WHY THE SMB IS REQUIRED:

If you surface away from the main yacht, your surface marker helps the yacht staff track your location for pickup. You are encouraged to practice deploying yours before the trip or on the initial check-out date.

Airline Travel & Checked Bags:

WHAT TO CARRY ON THE PLANE: Pack these in your carry-on bag (NOT checked luggage):

- Passport and travel documents
- Dive certification card
- Medical form
- Money and credit cards
- Prescription medications
- One change of clothes (including swimsuit)

- Basic toiletries

Why? If your checked bag is delayed, having essentials in your carry-on means you can still dive on Day 1. Once the yacht leaves port, it cannot receive deliveries until it returns.

CHECK YOUR AIRLINE'S RULES: Different airlines have different limits for number of bags, weight limits, size restrictions, and fees. Many airlines charge extra for dive equipment. Check if your airline offers a “sports equipment” allowance.

Communication with Home – Staying In Touch

Before departure:	Share your itinerary with family
Emergency contact:	+1-706-664-0111 available 24/7
At sea:	Cellular-based Wi-Fi (3G+) available when near islands. Internet packages for purchase from the Cruise Director. Cell phones may work sporadically near islands.
Return day:	Most cell phones will work if they have international roaming or data.

5. DIVING INFORMATION

Diving Operations

All diving on Aggressor Liveaboard yachts is recreational and non-decompression. Technical diving, rebreathers, and double tank diving are not supported.

All diving on the Maldives Aggressor II is conducted from the dedicated 60 ft Dhoni (dive tender). The Dhoni follows divers from the surface rather than anchoring, which is the safest and most comfortable method for Maldives diving given the wind and currents.

You and your buddy are responsible for managing your dive plan while adhering to the dive briefing, certification agency standards, and Maldives regulatory limits. Guests are not required to follow the staff in the water. Once the dive time expires (per the briefing) you should be back on the boat having completed your safety stop.

All dives must remain within recreational limits. No decompression diving is permitted.

Dive Supervision

- Dives are not directly supervised — each buddy team manages their own dive.

- Once dive time expires (per the briefing), the staff member will organize remaining buddy teams to surface for Dhoni pickup.
