1. BEFORE YOU GO

Passports

Your passport must be valid for at least 6 months after your trip ends.

UPLOAD DEADLINE: 7 days before your adventure starts

- Go to the Aggressor Guest Portal
- Upload a clear photo or scan of your passport
-

SPECIAL REQUIREMENTS:

- Egyptian citizens: Upload passport AND Egyptian ID
- Israeli citizens: Upload 30 days before trip (not 7 days)

Children traveling: Some countries have special rules for children leaving the country. Check your government's travel website for requirements.

Why we need this: Egyptian immigration requires passenger lists before arrival for port departure clearances.

If you miss the deadline, you may not be allowed on the yacht. Egyptian port authorities require this information for clearance.

Visa

Egypt charges visa fees. These fees can change without notice.

Type	Fee (USD)	Notes
Single-entry Visa	\$30*	Pay on arrival

* Prices accurate as of the last document update. These are government fees and are subject to change without notice.

You are responsible for:

- Getting the correct visa for Egypt

- Checking visa rules for any connecting flights

Where To Check:

- USA citizens: www.travel.state.gov
- Other countries: Contact your foreign affairs office or embassy
- All travelers:

The [IATA Travel Centre](#) is a helpful resource for travelers checking current travel, visa, and health requirements.

Questions? Contact the Aggressor reservations office.

Required Forms

You need three things before you can dive:

1. GUEST INFORMATION SYSTEM (GIS)

What: Aggressor's online cruise application forms, including waiver and travel details

When: Complete 7 days before departure

How: You'll receive a link by email. If you didn't get it, contact reservations.

Include your flight arrival time or hotel name in the GIS.

If you want to use the Aggressor bus service, you must reserve in the GIS.

2. MEDICAL FORM (RSTC)

What: Diving Medical History Form

When: Complete form before you arrive

How:

- We'll email you the link 60 days before your adventure, or download it now at <http://www.aggressor.com/RSTCMedical.pdf>
- Answer all questions honestly
- The form will tell you if your answers require a doctor's approval.
- If no doctor approval is needed, you can sign it yourself
- Print it and bring it to the yacht

ALREADY HAVE ONE? If you have a medical form signed by a doctor in the last 12 months, you can use that instead.

There are no doctors near Port Hamata. If you need a doctor's signature and don't have it, you cannot dive.

3. DIVE CERTIFICATION CARD (C-CARD)

What: Your diving certification card

Bring: The physical card or digital proof

Note: If diving with Nitrox, bring your Nitrox certification card as well.

What if I forget to complete these forms?

- You cannot dive without the medical form
- You cannot board without a passport upload confirmation
- Missing forms may result in missed dives or trip cancellation without refund.

Travel & Health Insurance

We strongly recommend you purchase insurance to protect your investment and health.

SUGGESTED COVERAGE:

- Travel Insurance (Trip Cancellation and Interruption)
- Dive Insurance (Dive Accident and Medical)
- Equipment Insurance

CONSIDER ADDING:

- "Cancel For Any Reason" (CFAR) upgrade – extends coverage beyond traditional policies without the constraints of “covered situations”.
- "Liveaboard Rider" upgrade - addresses liveaboard-specific issues such as missed dives due to illness, weather, or accidents to others, which impact your experience and more.

These policies provide financial security if unexpected events occur.

Get quotes: www.aggressor.com → [Insurance](#) for options.

2. PREPARING FOR YOUR ADVENTURE (2-4 WEEKS BEFORE)

Recommended Packing:

Travel light. Space on liveaboard yacht is limited.

LUGGAGE: Use soft luggage like duffel bags (not hard suitcases) for easy storage in your cabin.

CLOTHING TO BRING:

- Lightweight, comfortable sportswear
- Swimsuits
- Light sweater or jacket for evenings
- Walking shoes for time ashore
- Sunglasses and hat

Dress code: Always casual and informal

ESSENTIALS:

- Sunscreen (reef-safe recommended)
- Sunglasses
- Hat
- Walking shoes

PACKING CHECKLIST: Use this QR code to grab our free Packing Guide. It's a simple checklist that makes sure you bring everything you need for your adventure. No more forgotten essentials!

Electronic Devices

Personal Electronics are welcome:

- Cameras, phones, computers, tablets, and e-readers

The following devices are prohibited:

Prohibited Equipment	Notes
⊘ Drones	Prohibited by Egyptian Customs.
⊘ Underwater Scooters	Prohibited.
⊘ Electric Surfboards	Includes e-foils, jetboards, powered surfboards, and similar devices.

⊘ Satellite Phones

Prohibited by Egyptian Customs. Includes other devices communicator devices as well (ie: Garmin InReach Product)

CHECK WITH AIRLINE: Some airlines have restrictions on lithium batteries in checked bags. Check your airline's rules before packing.

Required Dive Equipment

All divers are required to have the following equipment. You may either bring your own or rent on board.

- Mask
- Fins
- Snorkel
- Buoyance Compensator
- Regulator with an Alternate Air source and a visible pressure gauge
- Dive Computer
- Safety Sausage (SMB) and Reel
- Tank (*provided*)
- Weights (*provided*)
- Weight belt (*provided*)
- Wetsuit

WHY SMB & REEL ARE REQUIRED:

Drift diving means surfacing away from the yacht. The tender needs to see your surface marker to track your location for pickup. This is a required safety equipment for all guests. We encourage you to practice deploying yours before the trip or on the initial check-out date.

Personal Dive Equipment

Each item of your personal gear should be marked with waterproof paint or tape. Many pieces of diving equipment look similar, so it's crucial that yours is clearly labeled.

Guests should also consider additional personal safety equipment such as:

- Dive Alert
- Nautilus Rescue Radio
- Whistle
- Mirror

Airline Travel & Checked Bags:

WHAT TO CARRY ON THE PLANE: Pack these in your carry-on bag (NOT checked luggage):

- Passport and travel documents
- Dive certification card
- Medical form
- Money and credit cards
- Prescription medications
- One change of clothes
- Basic toiletries

Why? If your checked bag is delayed, having essentials in your carry-on means you can still dive on Day 1. Once the yacht leaves port, we cannot receive deliveries until it returns.

CHECK YOUR AIRLINE'S RULES: Different airlines have different limits for:

- Number of bags
- Weight limits
- Size restrictions
- Extra fees

BUSY SEASON RESTRICTIONS:

- Some airlines reduce luggage allowance during high season
- You might only get one checked bag instead of two.

DIVE GEAR FEES:

- Many airlines charge extra fees for dive equipment.
- Check if your airline offers a "sports equipment" allowance.

PRINT YOUR TICKETS:

- Some Egyptian airports still require paper tickets.
- Bring printed copies plus your confirmation numbers.

Communication with Home – Staying In Touch

Before departure:	Share your itinerary with family
Emergency contact:	+1-706-664-0111 available 24/7
In port (Saturday/Sunday):	Brief WiFi access to send quick updates
At sea:	No contact for 5-6 days
Return day:	WiFi access again

Tip: Send a “heading out for 6 days” message Saturday evening so family knows you're offline by choice.

Green the Fleet Tips

Contribute to our Green the Fleet sustainability initiatives. Here are a few reminders to keep in mind as you get ready for your adventure:

- Avoid traveling with single-use plastics.
- Remove packaging from any new purchases before traveling.
- Travel with a refillable water bottle for hydration.
- Use rechargeable batteries whenever possible. Plan to bring home used batteries so they can be properly disposed of.
- Use an environmentally friendly or ocean-safe sunscreen.
- Be environmentally conscious in everything you do.

3. GETTING THERE

Arrival Airports:

Two options for arrival:

- Hurghada (HRG) – More international flights, 3.5 hour drive to port
- Marsa Alam (RMF) – Fewer flights, 10 minute drive to port

Recommended Arrival Times:

WE RECOMMEND: Arrive one day early

- Flights can be delayed
- Luggage can be lost
- Customs can take longer than expected
- Better to arrive relaxed than stressed

You will be responsible for transfers between the airport and your hotel.

If you choose to arrive on embarkation day, please note the cut-off times if you plan to use the bus service to the port.

Airport	Latest Arrival Time (to make bus departure)
Hurghada (HRG)	Before 8am
Marsa Alam (RMF)	Before 6pm

If your flights are scheduled to arrive after the latest listed arrival time above, you will need to arrange a private transfer. See Transfer Options below.

ARRIVING ON EMBARKATION DAY? Passengers must arrive and check-in on board the yacht by 6pm. Due to port clearance regulations, no late arrivals can be accepted. The yacht departs Port Ghalib once final clearances are received which is typically early Sunday morning. If your flight is delayed, the yacht cannot wait. This is why we recommend arriving one day early.

Transfer Options:

Which transfer option is right for you?

Use the Aggressor Bus if you:

- Arrive before cutoff times
- Want the most economical option
- Are comfortable with scheduled departures

Book a Private Transfer if you:

- Prefer direct service
- Have a group of 4+ people

Dietary Medical Restrictions:

If you have special medical dietary restrictions, please note them in your GIS reservation and discuss them with the yacht chef upon boarding so they can properly prepare to meet your needs.

Our remote location means limited access to specialty items. For strict dietary needs:

Kindly inform the US office before traveling so we can notify the staff in advance.

Gratuities

- We believe gratuities should be voluntary and based on the quality of service provided by the staff.
- When settling your bill, the Captain will have an envelope for gratuities that will be divided equally among the staff.
- Payment can be made by cash (USD, Euros, British pounds, or EGP - Egyptian pounds), Visa, or MasterCard.

Health & Medications

The Red Sea Aggressor IV has a basic first aid kit on board, including oxygen and an AED.

Motion Sickness: You might want to bring motion sickness medication if you think you'll need it. There are several over-the-counter brands for motion sickness medication. You can also consult your doctor about prescription options, such as the transdermal patch or Scopace tablets.
Currents and winds may cause moderate movement of the yacht at times.

Medication Storage:

The Red Sea Aggressor IV and their staff cannot accept any medication brought on board for safekeeping, including those that require refrigeration.

Guests needing temperature-sensitive medication should travel with a cooling case or a small storage cooler filled with blue ice packets. The staff will gladly store and recharge the blue ice but cannot accept responsibility for the proper care or storage of medication. This should be kept in the stateroom.

5. DIVING INFORMATION

Diving Operations

All diving on Aggressor Liveboard yachts is recreational and non-decompression.

In the Red Sea, dives are performed from the back of the main yacht or from one of two 7.5-meter/24-foot tenders. Each tender can carry up to 13 guests, providing quick access to even the most remote dive sites.

Diving from the Yacht: When diving directly off the yacht, at least one staff member will be in the water providing support, underwater photography, videography, and critter spotting services. A staff member will be in the water to assist guests in locating specific points of interest.

Diving from a Tender: When diving from a tender, a staff member will accompany each tender group and be in the water to offer assistance and ensure the group stays together.

If a buddy team needs to surface early, the entire group is not required to abort the dive and follow. The buddy team should follow the briefing and their training procedures for surfacing from a dive and signal the tender driver that everything is OK once on the surface.

Once the dive time expires (per the briefing), the staff member will organize the remaining buddy teams to surface together for pickup by the tender.

New to tender diving? Tell dive team on Day 1 for extra support during first few dives.

Typical Schedule (Saturday – Saturday)

- 18-22 dives per week (depending on itinerary & weather)
- Maximum 3-4 dives per day
- No decompression dives (recreational limits only)
- Night dives available on several evenings

Saturday	8am	Last Check-out w/ Private transfers
	11am	Bus service back to Hurghada local office

Dive Supervision

- We understand that diving is not just an activity; it's a passion for exploring our underwater world. That's why we empower you and your buddy to take control of your diving experience.
- While in the water, you and your buddy are in charge.
- Every dive starts with a thorough briefing from our experienced staff, giving you the essential information.
- As certified divers, you and your buddy are responsible for planning and carrying out your dives while respecting your experience limits and those set by the briefing and your certification agency.
- We do not directly supervise divers; each buddy team manages their own dive.

Equipment Storage:

- Each guest will be assigned a designated seat on the dive deck.
- Under each seat is a storage bin for personal equipment.
- There are also rails and hangers for your wetsuits.

Tanks & Fills & Nitrox

The yacht provides each diver with an 80 cu/ft (12-liter) aluminum tank. These have convertible valves that work with both K-valve (American type) and DIN (international) regulator connections.

Large capacity tanks (i.e., 15-liter / 100 cu/ft) are available for rent for guests who want extra capacity.

The default fill inside a tank for all guests is air.

Nitrox (32% blend) is available for divers who are Nitrox certified for an additional fee. Please see our website for pricing.

Equipment Rentals:

The following dive equipment is available for rental:

Item		Item		Item	
Mask	✓	Fins	✓	Snorkel	✓
BCD	✓	Regulators System	✓	Dive Computer	✓
Dive Light	✓	Safety Sausage (SMB)	✓	Large Capacity Tank (15L, 100 cu ft, or similar)	✓
Nautilus Rescue Radio	✓	Wetsuits	✓	U/W Cameras	⊘

Please visit Aggressor's website at www.aggressor.com for detailed information on costs for dive equipment rentals, certification courses, and large tanks.

If any of your dive equipment fails while on board, the staff will loan you equipment free of charge.

Wetsuit Rentals:

We strongly recommend bringing your own wetsuit to ensure optimal comfort and thermal protection during your dives. Since wetsuit fit is highly individual and vital for both comfort and warmth, bringing your personal wetsuit will provide the best diving experience. Other rental equipment is readily available, but the unique nature of wetsuit sizing makes it especially important to bring your own.

If you can't bring your own wetsuit:

You can request a rental wetsuit using the GIS. Your requested size will be sent from the Hurghada office to the yacht for your use.

Emergency Rentals: The yacht has a small stock of emergency rentals in standard sizes. Understand that if you wait to rent a wetsuit on the yacht and it doesn't fit, there is no time to go back for a "Plan-B".

Itinerary Details:

The diving operations plan may vary depending on weather conditions; however, the general plan for each itinerary is as follows:

Brothers/Daedalus/Elphinstone Itinerary: 80% of dives are drift dives from tender, while the other 20% are from the mother yacht's back deck. On this itinerary, guests will enjoy 3 to 4 dives per day with 2 dives on the last day. The typical trip features 20-22 dives plus a snorkeling encounter with dolphins.

St John/Daedalus Itinerary: This itinerary features about 70% drift diving from skiffs over protected coral reefs and 30% swim-throughs or protected reef diving from the back of the mothership.

Between dives, guests can snorkel or relax with a cold drink and a mid-morning or mid-afternoon snack.

On this itinerary, guests will enjoy 3-4 dives per day with 2 dives on the last day. The typical trip features 18-20 dives plus a snorkeling encounter with dolphins.

Diving Conditions

- You'll be diving in water that averages 74°- 84° degrees or 23°- 29° C.
- Most guests do as many as 3 to 4 dives each day, so some form of protection is necessary. A 3mm wetsuit in the summer and a 5mm in winter should be comfortable and sufficient.
- Season-by-Season:
 - o Winter (Dec-Feb): 74°F (23°C) water, use 5mm wetsuit, some wind/waves
 - o Spring (Mar-May): 77°F (25°C) water, use 3-5mm wetsuit, great conditions
 - o Summer (Jun-Aug): 84°F (29°C) water, use 3mm wetsuit or shorty, very warm
 - o Fall (Sep-Nov): 80°F (27°C) water, use 3mm wetsuit, excellent visibility
- Please see our “Adventure Log” on our website for current diving conditions.

Scuba Training:

Enhance your education while on board an Aggressor yacht!

The courses available include:

- Advanced Open Water Diver (SSI or PADI)
- Enriched Air / Nitrox Courses (SSI or PADI)

Course fees are due once on board and after the instructor confirms your course. The training agency providing your course will depend on your instructor's affiliations.

A diver participating in scuba training will need to complete a medical history form. (The same one you used to board the yacht is fine.). Please be sure to review the form and ensure you do not need a physician's signature.

Photo & Video

Photography: The Red Sea Aggressor IV provides photography coaching while on board. It has a charging station and a large camera table available for your camera and video equipment.

As a safety precaution, all lithium-ion batteries must be charged outside at the camera station and cannot be charged inside the yacht.

Video Service: The Video Professional can capture your diving adventure on board the Red Sea Aggressor IV to share with family and friends.

The video of the week (including all guests and staff) is available for an additional fee. See www.aggressor.com for current pricing.

Nearest Chamber

The nearest hyperbaric chamber is the Marsa Shagra Hyperbaric Chamber, located 40 kilometers from Port Ghalib. We recommend a full physical exam before your adventure if you have any concerns and always dive conservatively.

Prohibited Diving Activities:

The following diving activities are not supported and prohibited on Aggressor Liveboards

- Use of Spear guns, Hawaiian slings or collecting of any kind are not permitted.
- Solo Diving
- Use of double tanks
- Use of underwater scooters
- Decompression or Technical Diving

6. AFTER YOUR ADVENTURE

Guest Surveys

We will send you a detailed survey via email three days after your adventure ends. (If you've completed back-to-back adventures, you'll receive one survey for each.) We truly value guest feedback and integrate the feedback into the continuous improvement of our programs.

Many amenities and experiences you enjoyed during your adventure were inspired by guest suggestions. We sincerely appreciate this feedback, as it helps us enhance our operations and exceed future guest expectations.

Your survey also offers a valuable opportunity to recognize exceptional staff performance. These evaluations directly influence staff recognition programs, awards, and promotions. The staff is dedicated to making your adventure memorable, and your feedback helps us celebrate their outstanding service. We appreciate you taking the time to provide thoughtful responses that help us to maintain the highest standards of the Aggressor experience.
